1. Identification

Product identifier used on the label: Feather Fill G2 Gray
Stock Number: 100713

Other means of identification:
Synonyms: None Known

Recommended use of the chemical and restrictions on use:
Recommended use: Polyester Primer Surfacer
Restrictions on use: Uses other than recommended use.

Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party:
ITW Evercoat
a division of Illinois Tool Works Inc.
6600 Cornell Road
Cincinnati, OH 45242
513-489-7600

Telephone number: CHEMTREC: 1-800-424-9300
CANUTEC: 1-613-996-6666

Emergency phone number: CHEMTREC: 1-800-424-9300 CANUTEC: 1-613-996-6666

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200:

GHS Hazard Symbols:

GHS Classification:
Carcinogenicity Category 1A
Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 1
Specific Target Organ Systemic Toxicity (STOT) - Repeated Exposure Category 1
Aspiration Hazard Category 1
Flammable Liquid Category 2
Skin Corrosion/Irritation Category 2
Serious Eye Damage/Eye Irritation Category 2A
Germ Cell Mutagenicity Category 2
Reproductive Toxicity Category 2
Hazardous to the aquatic environment - Acute Category 2
### Signal Word:
Danger

### Hazard Statements:
- Highly flammable liquid and vapor.
- May be fatal if swallowed and enters airways.
- Causes skin irritation.
- Causes serious eye irritation.
- Suspected of causing genetic defects.
- May cause cancer.
- Suspected of damaging fertility or the unborn child.
- Causes damage to organs.
- Causes damage to organs through prolonged or repeated exposure.
- Toxic to aquatic life.

### Precautionary Statements:

#### Prevention:
- Obtain special instructions before use.
- Do not handle until all safety precautions have been read and understood.
- Keep away from heat/sparks/open flames/hot surfaces. – No smoking.
- Keep container tightly closed.
- Ground/bond container and receiving equipment.
- Use explosion-proof electrical/ventilating/lighting equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- Do not breathe dust/fume/gas/mist/vapors/spray.
- Wash with soap and water thoroughly after handling.
- Do not eat, drink or smoke when using this product.
- Avoid release to the environment.
- Wear protective gloves/protective clothing/eye protection/face protection.

#### Response:
- If swallowed: Immediately call a poison center/doctor.
- IF ON SKIN: Wash with plenty of soap and water.
- If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- Specific treatment (see Sections 4 to 8 on the SDS and any additional information on the label).
- Do NOT induce vomiting.
- If skin irritation occurs: Get medical advice/attention.
- If eye irritation persists: Get medical advice/attention.
- Take off contaminated clothing and wash it before reuse.
- In case of fire: Use appropriate media to extinguish.
Safety Data Sheet

Product identifier used on the label: Feather Fill G2 Gray
Stock Number: 100713
Revision Date: 06-20-2017
Replaces: 08-19-2016

Storage:
Keep container tightly closed. Store in a well-ventilated place. Keep cool. Store locked up.

Disposal:
Dispose of contents in accordance with your local disposal company along with national/international regulations.

Hazards not otherwise classified:
Reports have associated repeated and prolonged occupational overexposure to solvents with permanent brain and nervous system damage.

One or more hazardous ingredient(s) is claimed as a trade secret under the OSHA Hazard Communication Standard. The hazards of this (these) ingredient(s) are given on this SDS.

4. First-aid measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

Inhalation: Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical attention immediately. If the victim has stopped breathing open airway, loosen collar and belt, and administer artificial respiration. Keep the victim warm and quiet.

Eye Contact: Flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention.

Skin Contact: Wash with soap and water. Remove contaminated clothing and launder. Get medical attention if irritation develops or persists. Wash clothing before reuse. Wash affected area thoroughly with soap and water.
### Ingestion:
Do not induce vomiting and seek medical attention immediately. Drink two glasses of water or milk to dilute. Provide medical care provider with this SDS. If vomiting occurs spontaneously, keep head below hips to prevent aspiration of liquid into lungs. If possible, do not leave individual unattended. If individual is drowsy or unconscious, do not give anything by mouth; place individual on left side with head down.

### Most important symptoms/effects, acute and delayed:
- May be fatal if swallowed and enters airways. Causes skin irritation.
- Causes serious eye irritation.
- Causes damage to organs.
- Causes damage to organs through prolonged or repeated exposure

### Indication of immediate medical attention and special treatment needed, if necessary:
No additional first aid information available

---

### 5. Fire-fighting measures

#### Suitable (and unsuitable) extinguishing media:

**Suitable extinguishing media:** Use alcohol resistant foam, carbon dioxide, or dry chemical extinguishing agents. Water spray or fog may also be effective for extinguishing if swept across the base of the fire. Water can also be used to absorb heat and keep exposed material from being damaged by fire. Regular foam

**Unsuitable extinguishing media:** No data available

**Specific hazards arising from the chemical:** Vapors may be ignited by heat, sparks, flames or other sources of ignition at or above the low flash point giving rise to a Class B fire. Vapors are heavier than air and may travel to a source of ignition and flash back

**Hazardous combustion products:** Carbon dioxide, Carbon monoxide, Styrene oxide, oxides of nitrogen, Hydrocarbons

**Special protective equipment and precautions for fire-fighters:** Do not enter fire area without proper protection including self-contained toxic breathing apparatus and full protective equipment. Fight fire from a safe distance and a protected location due to the potential of hazardous vapors and decomposition products. Flammable component(s) of this material may be lighter than water and burn while floating on the surface. Use water spray/fog for cooling. Wear a self contained breathing apparatus (NIOSH approved) with a full face piece operated in the positive pressure demand mode with appropriate turn-out gear and chemical resistant personal protective equipment. Water may be used to cool closed containers to prevent pressure build-up and possible auto ignition or explosion when exposed to extreme heat.

---

### 6. Accidental release measures
### 7. Handling and storage

**Precautions for safe handling:** Harmful or irritating material. Avoid contacting and avoid breathing the material. Use only in a well ventilated area. Keep out of the reach of children. Keep container closed when not in use. Do not take internally. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Use with adequate ventilation Wash hands before eating Do not get in eyes, on skin and clothing All hazard precautions given in the data sheet must be observed.

**Conditions for safe storage, including any incompatibilities:**

| Safe storage conditions: | Store in a cool dry ventilated location. Isolate from incompatible materials and conditions. Keep container(s) closed. Avoid contact with incompatible materials. Store in a tightly closed container Keep away from heat, sparks, and flame For maximum product quality, avoid prolonged storage at temperatures above 75 °F (25 °C). |

| Materials to Avoid/Chemical Incompatibility: | Peroxides, Strong acids, Strong oxidizing agents, Halogens, Reducing agents, Strong alkalies |

---

### 8. Exposure controls/personal protection
OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

<table>

Appropriate engineering controls: No exposure limits exist for the constituents of this product. Use local exhaust ventilation or other engineering controls to minimize exposures and maintain operator comfort.

Individual protection measures, such as personal protective equipment:

Respiratory Protection: Respiratory protection may be required to avoid overexposure when handling this product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. Use a NIOSH approved respirator designed to remove particulate matter and organic solvent vapors.

Respirator Type(s): NIOSH approved air purifying respirator with organic vapor cartridge and HEPA filter. Air purifying respirators should not be used in oxygen deficient or IDLH atmospheres.

Eye protection: Wear chemically resistant safety glasses with side shields when handling this product. Do not wear contact lenses. Splash proof chemical goggles are recommended to protect against the splash of product.

Skin protection: Wear protective gloves. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. To prevent repeated or prolonged skin contact, wear impervious clothing and boots. Gloves should be made of neoprene or natural rubber. Protective gloves and proper clothing should be worn to prevent skin contact.

Gloves: Protective gloves are recommended when prolonged skin contact cannot
be avoided.

Other protective equipment: To prevent repeated or prolonged skin contact, wear impervious clothing and boots. Gloves should be made of neoprene or natural rubber. Protective gloves and proper clothing should be worn to prevent skin contact. Splash proof chemical goggles are recommended to protect against the splash of product.

General hygiene conditions: Keep out of the reach of children. Keep container closed when not in use. Do not take internally. Avoid contact with material, avoid breathing dusts or fumes, use only in a well ventilated area. Use with adequate ventilation. Wash hands before eating. Do not get in eyes, on skin and clothing. All hazard precautions given in the data sheet must be observed.

9. Physical and chemical properties

Appearance (physical state, color etc.):

- Physical state: Liquid
- Color: Grey
- Odor: Aromatic
- Odor Threshold: No data available
- pH: Neutral

Melting point/freezing point (°C):
- Melting Point (°C): No data available
- Freezing point (°C): No data available

Initial boiling point and boiling range (°C): 56

Flash Point (°C): -17

Evaporation Rate: No data available

Flammability (solid, gas): No data available

Upper/lower flammability or explosive limits:
- Upper flammability or explosive limits: 12.8
- Lower flammability or explosive limits: 1

Vapor pressure: No data available

Vapor density: Heavier than air. Vapors that evolve from this product will tend to settle and accumulate near the floor.
Relative density: 1.37
Solubility(ies): Insoluble
Partition coefficient: n-octanol/water: 1.36
Auto-ignition temperature (°C): No data available
Decomposition temperature (°C): No data available
Viscosity: No data available
Volatile Organic Chemicals: 30 - 35 %
VOC (as packaged-less exempts and water): 2.42 lbs/gal or 289.98 g/L
VOC (as applied*- 2% by wt hardener-less exempts and water): 1.18 lbs/gal or 141.39 g/L
Percent Solids by weight – as packaged (%): 65.9
Percent Solids by weight – as applied* - 2% by wt hardener (%): 76.8
VHAP Content by weight – as packaged (%): 23.3
VHAP Content by weight – as applied* - 2% by weight hardener (%): 11.4
Bulk density: 11.4

10. Stability and reactivity

Reactivity: Not expected to be reactive
Chemical stability: Stable under normal handling conditions
Possibility of hazardous reactions: None expected under standard conditions of storage
Conditions to avoid (e.g., static discharge, shock, or vibration): Contamination
Incompatible materials: Peroxides, Strong acids, Strong oxidizing agents, Halogens, Reducing agents, Strong alkalies
Hazardous decomposition products: Toxic and corrosive gases,, Carbon dioxide, Carbon monoxide, Styrene oxide, oxides of nitrogen, Hydrocarbons

11. Toxicological information

Description of the various toxicological (health) effects and the available data used to identify those effects:
Information on the likely routes of Absorption, Eye contact, Skin contact, Ingestion
exposure (inhalation, ingestion, skin and eye contact):

Symptoms related to the physical, chemical and toxicological characteristics:
May be fatal if swallowed and enters airways. Causes skin irritation. Causes serious eye irritation. Causes damage to organs. Causes damage to organs through prolonged or repeated exposure

Delayed and immediate effects and also chronic effects from short- and long-term exposure:

Ingestion Toxicity: Harmful if swallowed. May cause systemic poisoning.

Skin Contact: Can cause moderate skin irritation, defatting, and dermatitis. Not likely to cause permanent damage. Symptoms may include redness, burning, drying and cracking of skin, and skin burns. Contact may cause irritation and possible dermatitis or sensitization. No absorption hazard in normal industrial use.

Inhalation Toxicity: Upon prolonged and/or repeated exposure, can cause moderate respiratory irritation, dizziness, weakness, fatigue, nausea and headache. Harmful! Can cause systemic damage (see “Target Organs”).

Eye Contact: Can cause moderate irritation, tearing and reddening, but not likely to permanently injure eye tissue.

Sensitization: None Known

Mutagenicity: No data

Reproductive and Developmental Toxicity: Classification has been based on toxicological information of the components in Section 3.

Carcinogenicity: The International Agency for Research on Cancer (IARC) has classified styrene as a group 2B carcinogen (possibly carcinogenic to humans).

STOT-single exposure: Classification has been based on toxicological information of the components in Section 3.

STOT-repeated exposure: Classification has been based on toxicological information of the components in Section 3.

Aspiration hazard: Classification has been based on toxicological information of the components in Section 3.

Numerical measures of toxicity (such as acute toxicity estimates):

12. Ecological information

Ecotoxicity (aquatic and terrestrial, where available):

This material is toxic to aquatic organisms and should not be released to sewage, draining systems or any body of water exceeding concentrations of approved limits under applicable regulations and permits.

Toxic to aquatic life
Very toxic to aquatic life
