1. Identification

Product identifier used on the label:
Product Name: Maxim Medium Set Adhesive Cartridge
Product identifier: 100813

Other means of identification
Synonyms: No data available

Recommended use of the chemical and restrictions on use:
Adhesive

Name, address, and telephone number of the chemical manufacturer, importer, or other responsible party
Chemical Manufacturer / Importer / Distributor: ITW Evercoat
a division of Illinois Tool Works Inc.
6600 Cornell Road
Cincinnati, OH 45242
513-489-7600

Emergency phone number: CHEMTREC: 1-800-424-9300
CANUTEC: 1-613-996-6666

2. Hazard(s) identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

GHS Hazard Symbols:

GHS Classification: Skin Sensitisation Category 1
Carcinogenicity Category 1A
Serious Eye Damage/Eye Irritation Category 2B
Hazardous to the aquatic environment - Acute Category 3

GHS Signal Word: Danger

GHS Hazard Statements:
May cause an allergic skin reaction.
Causes eye irritation
May cause cancer.
Harmful to aquatic life.

GHS Precautionary Statements:
Safety Precautions: Obtain special instructions before use.
Do not handle until all safety precautions have been read and understood. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection.

**First Aid Measures:**

**IF ON SKIN:** Wash with plenty of soap and water.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**IF exposed or concerned:** Get medical advice/attention. Specific treatment (see on this label).

**IF skin irritation or rash occurs:** Get medical advice/attention.

**IF eye irritation persists:** Get medical advice/attention.

Wash contaminated clothing before reuse.

**Storage:**

Store locked up.

**Disposal:**

Dispose of contents/container in accordance with local/regional/national/international regulation for hazardous wastes.

Hazards not otherwise classified: No data available

### 3. Composition/information on ingredients

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

The specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

### 4. First-aid measures

Description of necessary measures, subdivided according to the different routes of exposure, i.e., inhalation, skin and eye contact, and ingestion:

**Eye Contact:**

Immediately flush eyes with plenty of water for at least 20 minutes retracting eyelids often. Tilt the head to prevent chemical from transferring to the uncontaminated eye. Get immediate medical attention and monitor the eye daily as advised by your physician.

**Skin Contact:**

Wash with soap and water. Remove contaminated clothing, launder immediately, and discard contaminated leather goods. Get medical attention immediately.

**Inhalation:**

Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen. If not breathing, give artificial respiration and have a trained individual administer oxygen. Get medical advice/attention.
Ingestion: Severely irritating. Do not induce vomiting. Seek medical attention immediately. Drink 2 glasses of water or milk to dilute.

Most important symptoms/effects, acute and delayed:

Most important symptoms/effects (Acute): No data available
Most important symptoms/effects (Delayed): No data available

Indication of immediate medical attention and special treatment needed, if necessary: No additional first aid information available

5. Fire-fighting measures

Suitable (and unsuitable) extinguishing media:

Suitable extinguishing media: Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied to the surface of the fire. Do Not direct a stream of water into the hot burning liquid.

Unsuitable extinguishing media: No data available

Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products):

Fire and/or Explosion Hazards: Material may be ignited only if preheated to temperatures above the high flash point, for example in a fire. Combustible Liquid. Can form explosive mixtures at temperatures at or above the flash point.
Empty containers that retain product residue (liquid, solid/sludge, or vapor) can be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose container to heat, flame, sparks, static electricity, or other sources of ignition. Any of these actions can potentially cause an explosion that may lead to injury or death.

Hazardous Combustion Products: Carbon dioxide, Carbon monoxide

Special protective equipment and precautions for firefighters: Do not enter fire area without proper protection including self-contained breathing apparatus and full protective equipment. Use methods for the surrounding fire.
6. Accidental release measures

Personal precautions, protective equipment, and emergency procedures:
Exposure to the spilled material may be severely irritating or toxic. Follow personal protective equipment recommendations found in Section VIII of this MSDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure limits.

Methods and materials for containment and cleaning up:
Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section VIII at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.

7. Handling and storage

Precautions for safe handling: Toxic or severely irritating material. Avoid contacting and avoid breathing the material. Use only in a well ventilated area.

Conditions for safe storage, including any incompatibilities

Conditions for safe storage:
Store in a cool dry place. Isolate from incompatible materials.

Materials to Avoid/Chemical Incompatibility:
Acids Aluminum alloys Ammonia Oxidizing materials

8. Exposure controls/personal protection

OSHA permissible exposure limit (PEL), American Conference of Governmental Industrial Hygienists (ACGIH) Threshold Limit Value (TLV), and any other exposure limit used or recommended by the chemical manufacturer, importer, or employer preparing the safety data sheet, where available:

<table>
<thead>
<tr>
<th>Chemical Component</th>
<th>OSHA PEL</th>
<th>ACGIH TLV-TWA</th>
<th>ACGIH STEL</th>

<td>No data available</td>
</tr>
</tbody>
</table>

Appropriate engineering controls:
Local exhaust ventilation or other engineering controls are normally required when handling or using this product to avoid overexposure. Engineering controls must be designed to meet the OSHA chemical specific standard in 29 CFR 1910. Ventilation is required to maintain operator exposure below published exposure limits. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Facilities storing or using this material should be equipped with an eyewash and safety shower.

Individual protection measures, such as personal protective equipment:
Safety Data Sheet

Product Name: Maxim Medium Set Adhesive Cartridge
Product identifier: 100813
Revision Date: 08-18-2016
Replaces:

Eye Protection:
Wear chemically resistant safety glasses with side shields when handling this product. Wear additional eye protection such as chemical splash goggles and/or face shield when the possibility exists for eye contact with splashing or spraying liquid, or airborne material. Do not wear contact lenses. Have an eye wash station available. Wear splash-proof safety goggles if material could be misted or splashed into eyes. Wear goggles and a Face shield.

Skin Protection:
Avoid skin contact by wearing chemically resistant gloves, an apron and other protective equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving work. Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield.

Respiratory Protection:
Respiratory protection will be required when handling this product. Use respirators only if ventilation cannot be used to eliminate symptoms or reduce the exposure to below acceptable levels. Follow a respiratory protection program that meets 29 CFR 1910.134 and ANSI Z88.2 requirements whenever work place conditions warrant the use of a respirator. Wear a NIOSH approved respirator if any exposure is possible.

Other Protective Equipment:
Wear splash-proof safety goggles if material could be misted or splashed into eyes. Wear goggles and a Face shield. Where contact is likely, wear chemical resistant gloves, a chemical suit, rubber boots, and chemical safety goggles plus a face shield.

9. Physical and chemical properties

Appearance (physical state, color, etc.):
- Appearance (physical state): Paste
- Color: Grey
- Odor: No data available
- Odor threshold: No data available
- pH: No data available
- Melting Point/Freezing Point (°C): No data available
- Initial Boiling Point and Boiling Range (°C): 205
- Flash Point (°C): 94
- Evaporation Rate: No data available
- Flammability (solid, gas): No data available

Upper/lower flammability or explosive limits:
- Upper Flammable/Explosive Limit (%): No data available
- Lower Flammable/Explosive Limit (%): No data available
- Vapor Pressure: No data available
- Vapor Density: No data available

### Reactivity:
No data available

### Chemical stability:
Stable under normal conditions.

### Possibility of hazardous reactions:
No data available

### Conditions to avoid (e.g., static discharge, shock, or vibration):
Contamination

### Incompatible materials:
Acids, Aluminum alloys, Ammonia, Oxidizing materials

### Hazardous decomposition products:
Carbon dioxide, Carbon monoxide

## 11. Toxicological information

### Information on the likely routes of exposure (inhalation, ingestion, skin and eye contact):
Inhalation, Ingestion, Skin contact, Eye contact, Absorption, Skin contact, Eye contact

### Symptoms related to the physical, chemical and toxicological characteristics:
No data available

### Immediate (Acute) Health Effects by Route of Exposure:

#### Inhalation Irritation:
Can cause severe respiratory irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness. Can cause mechanical irritation if dusts are generated.

#### Inhalation Toxicity:
Harmful! Can cause systemic damage (see "Target Organs")

#### Skin Contact:
Can cause severe irritation, defatting, and dermatitis. Irritation effects may last for hours or days but will not likely result in permanent damage.

#### Skin Absorption:
Harmful if absorbed through the skin. May cause severe irritation and systemic damage.

#### Eye Contact:
Can cause severe irritation. Eye contact may result in corneal injury. Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva. Temporary vision impairment (cloudy or blurred vision) is possible.

#### Ingestion Irritation:
Severely irritating to mouth, throat, and stomach. Can cause abdominal discomfort,
Ingestion Toxicity: 
Harmful if swallowed. May cause systemic poisoning.

Long-Term (Chronic) Health Effects:

Carcinogenicity: 
May cause cancer.

Reproductive and Developmental Toxicity: 
No data available to indicate product or any components present at greater than 0.1% may cause birth defects.

Mutagenicity: 
No data available to indicate product or any components present at greater than 0.1% is mutagenic or genotoxic.

Inhalation: 
Upon prolonged and/or repeated exposure, can cause severe respiratory irritation, dizziness, weakness, fatigue, nausea, headache and possible unconsciousness. Harmful! Can cause systemic damage upon prolonged and/or repeated exposure (see “Target Organs”)

Skin Contact: 
Upon prolonged or repeated contact can cause severe irritation, defatting, and dermatitis. May cause lingering affects but not likely to result in permanent damage if the exposure is eliminated.

Skin Absorption: 
Upon prolonged or repeated exposure, harmful if absorbed through the skin. May cause severe irritation and systemic damage.

Numerical measures of toxicity (such as acute toxicity estimates)

Ecotoxicity (aquatic and terrestrial, where available): 
Toxic to aquatic life. Harmful to fish and other water organisms.

Persistence and degradability: 
No data available

Bioaccumulative potential: 
No data

Mobility in soil: 
No data available

Other adverse effects (such as hazardous to the ozone layer): 
No data available

13. Disposal considerations

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging

Description of waste residues: Spent or discarded material is not expected to be a hazardous waste.

Waste treatment methods (including packaging): Dispose of in a landfill. Disposal is not likely to be regulated.

14. Transport information

UN number: No data available
UN proper shipping name: Not Regulated
Transport hazard class(es): No data available
Packing group: No data available

The shipper is responsible for following all applicable regulations. The transportation classification provided is based on ITW Evercoat original packaging, which is suitable for domestic ground transport only.

15. Regulatory information

Safety, health and environmental regulations specific for the product in question

TSCA Status: All components in this product are on the TSCA Inventory.
