

EVERCOAT®

EVERCOAT®

QUANTUM **1**™

10:1 Single Step
Repair Technology

TAKE CONTROL OF YOUR DENT REPAIR PROCESS!

Quantum1 10:1 Single Step Repair Technology just got better. It's designed to speed up the dent repair process by eliminating finishing putty from the repair process and sanding like a dream. The new 825mL cartridge is easy-to-use and consistently dispenses the proper 10:1 mix ratio. The only choice you have to make is fast or slow.

● **“WORRY-FREE” MIXING!**

- Dispenses accurate mix ratio every time with the included ratio-check tip

● **LESS WASTE!**

- Use 100% of material in cartridge
- Only dispense what you need

● **MORE REPAIRS PER CARTRIDGE!**

- More than 2x the material of other cartridge-based dent repair products

● **AVAILABLE IN TWO SPEEDS!**

- #492 FAST - Ideal for cold temperatures or quick repairs
- #494 SLOW - Ideal for warm temperatures or large repairs

evercoat.com

EVERCOAT®

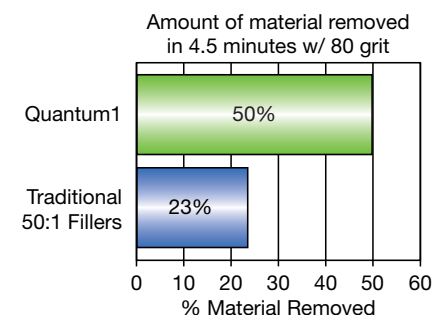

No putty needed!

- Specially formulated to have a tight, non-porous surface and non-shrink stability to allow for direct priming
- Save 50% on labor and 20% on material

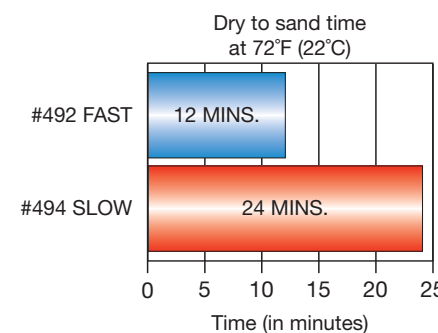

Sands like a dream

- Testing has shown that Quantum1 sands two times faster than traditional 50:1 fillers and putties
- Forget about 40 grit, start with 80 grit or even 180 grit

Fast and slow catalyst

- Eliminates the need to adjust mix ratio “on the fly” as weather changes
- Provides greater work time flexibility
- Reduces risk of repair defects due to inconsistent mix ratio

Part No.	Description	Size	Units/Case
100492	Quantum1 Fast	825mL	4
100494	Quantum1 Slow	825mL	4
100835	825mL Dispensing Gun	n/a	1
