

TECHNICAL DATA SHEET

Adhesion Promoter

104186

DESCRIPTION:	Adhesion Promoter is a fast drying transparent surface promoter formulated to create a chemical bond that enhances adhesion of plastic repair fillers on most plastic substrates.										
USES:	FOR PROFESSIONAL USE ONLY Enhances the adhesion of repair materials and topcoats. Can be used with epoxy and urethane repair products. Excellent sealer on OEM and aftermarket plastic parts.										
STORAGE:	 <p>Store in accordance with local regulations. Observe label precautions. Store in a cool, well-ventilated area away from incompatible materials and ignition sources. Do not expose to temperatures exceeding 50°C. Keep away from heat and direct sunlight. Keep away from: oxidizing agents, strong alkalis, strong acids, amines, alcohols, water. No smoking. Prevent unauthorized access. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Keep out of the reach of children. Do not empty into drains.</p>										
PREPARATION:	 <p>Surface must be cleaned and lightly abraded with 180-240 grit sand paper before applying Adhesion Promoter. Shake can vigorously before applying.</p>										
APPLICATION:	 <p>Apply light coats in a crisscross fashion from a distance of 20-30 cm. Avoid extensive thickness. Allow to dry thoroughly for 15 minutes. Apply repair filler, primer or topcoats. Note: Not to be used on fiber reinforced plastic. Adhesion promoter must be completely dry before applying repair filler or topcoats. Only use in well ventilated areas.</p>
