

EVERCOAT[®]

EVERCOAT[®]

FINISHING PUTTY

No matter the repair challenge...EVERCOAT[®] offers the right Product!

EVERCOAT[®]

QUANTUM™

10:1 Premium Finishing Putty

- Utilizes breakthrough patent-pending hybrid polyester/epoxy technology!
- Epoxy-enriched catalyst provides enhanced sanding characteristics, increased corrosion protection and minimizes repair shrink
- Passes 500 hours salt spray test (ASTM B117)
- Can be used with multiple catalysts to adjust for seasonal climate changes

Part No.	Size	Units/case
460	30 fl.oz. Pump	6

10:1 BPO Catalyst - Fast

- Epoxy-enriched formula provides unsurpassed performance when mixed with Quantum1
- Eliminates the need to adjust mix ratio "on-the-fly" as weather changes
- Ideal for use in colder temperatures and for small, quick repairs

Part No.	Size	Units/case
455	2.8 oz. Tube	12

10:1 BPO Catalyst - Low Temp

- Epoxy-enriched formula provides unsurpassed performance when mixed with Quantum1
- Eliminates the need to adjust mix ratio "on-the-fly" as weather changes
- Ideal for use in cold temperatures and for small to medium repairs

Part No.	Size	Units/case
457	2.8 oz. Tube	12

10:1 BPO Catalyst - High Temp

- Epoxy-enriched formula provides unsurpassed performance when mixed with Quantum1
- Eliminates the need to adjust mix ratio "on-the-fly" as weather changes
- Ideal for use in higher temperatures and for medium to large repairs

Part No.	Size	Units/case
458	2.8 oz. Tube	12

METAL GLAZE® OEM™

Premium Finishing and Glazing Putty

- Advanced formula passes 500 hours salt spray test (ASTM B117)
- High build formula providing improved filling characteristics and sag resistance
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint
- Pinhole resistant formula

Part No.	Size	Units/case
413	24 fl.oz. Tube	6
414	30 fl.oz. Pump	6

GLAZE COAT™

Spreadable or Brushable Polyester Finishing Putty

- Offers the same performance as Metal Glaze® in a buff colored formula with white cream hardener
- Spreads smoothly easily filling grind marks, pinholes, and other minor imperfections
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint

Part No.	Size	Units/case
417	30 fl.oz. Pump	6

GLAZE-IT®

Finishing Putty

- Self-leveling, high build formula
- Easy to spread and sand
- Excellent featheredge adhesion

Part No.	Size	Units/case
410	24 fl.oz. Tube	6

METAL GLAZE®

Polyester Finishing and Blending Putty

- Provides the ultimate in spreading and self-leveling
- Spreads smoothly easily filling grind marks, pinholes, and other minor imperfections
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint

Part No.	Size	Units/case
412	16 fl.oz. Pouch	6
415	24 fl.oz. Tube	6
416	30 fl.oz. Pump	6

EASY SAND™

Flowable Polyester Finishing and Blending Putty

- Contains Hattonite™ for optimum sanding performance
- Ideally suited for skim coating body work, pinholes, and other minor imperfections
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint

Part No.	Size	Units/case
420	24 fl.oz. Tube	6
421	30 fl.oz. Pump	6

POLY-FLEX™

Flexible Polyester Glazing Putty

- Specially designed for spot filling and skim coating over repair areas on flexible bumpers and plastic parts
- Flowable viscosity is ideal for filling minor surface imperfections, such as sand scratches, nicks and gouges

Part No.	Size	Units/case
411	30 fl.oz. Pump	6

EVERCOAT®

POLYESTER GLAZING PUTTY

Ultra Smooth Finishing Putty

- Original fast dry polyester glazing putty formula
- Ideally suited for skim coating body work, pinholes, and other minor imperfections
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint

Part No.	Size	Units/case
400	20 fl. oz. can	12
407	½ Gallon	4

EURO-SOFT®

Polyester Glazing Putty

- Smooth formula with extra working time for use in warm weather and glazing large areas
- Ideally suited for repairs subject to stress and impact, such as, door edges, fender edges, body seams and flexible bumpers
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint

Part No.	Size	Units/case
408	20 fl. oz. can	12
409	½ Gallon	4

SPOT-LITE™

Premium Lightweight Polyester Finishing and Spot Putty

- Self-leveling paste putty
- Contains Hattonite™ for improved sandability
- Contains ZNX-7® technology for superior adhesion and featheredging on all metal substrates, SMC and O.E.M. paint

Part No.	Size	Units/case
445	20 fl. oz. can	12
446	½ Gallon	4

EVER-GLAZE

Spot Putty

- Single component red lacquer putty
- Spreads smoothly and sands easily with minimal shrinkage
- Fast drying

Part No.	Size	Units/case
403	1 lb. Tube	12

Evercoat's MetalWorks® System is a family of premium body fillers and finishing putties that are specially designed to increase shop productivity. The MetalWorks® System is backed by the industry's original corrosion warranty. The MetalWorks® warranty honors the new vehicle O.E.M. corrosion warranty.(refer to warranty #703717)
